

FIELDSTATE INVESTOR COST SCHEDULE

Non-binding Discussion Draft

This schedule is a non-binding discussion draft. It is not a legal agreement, not an offer of securities, and not legal advice. Subject to counsel review before signature. Any transaction should be documented by counsel.

Purpose

This schedule summarises the categories of cost an investor may fund during the Fieldstate option, MVP, pilot, data, model, and platform stages. All figures are indicative planning ranges only and exclude VAT/tax unless expressly stated.

Parties

Table:

* Party Description
Fieldstate / NewCo Proposed company or vehicle for the Fieldstate business.
Razim Wasti Founder/operator and current technical/product lead.
Vlad Commercial relationship partner, role to be agreed.
Investor Prospective funder/investor/acquirer.

Cost Principles

- Retainer payments fund active delivery time and do not by themselves transfer IP ownership.
- Option fees fund exclusivity or first-right mechanics and may be credited only if expressly agreed.
- Sprint/build fees fund defined deliverables and acceptance criteria.
- IP transfer, company equity, warrants, SAFE conversion, or acquisition rights require separate definitive documents.
- Licensed data, GPU training, legal fees, tax, accounting, and production infrastructure are separate budget lines unless expressly included.

Stage 0 - Legal, Formation, and Transaction Setup

Table:

* Cost Item Indicative Range Payable By Notes
Counsel review To be quoted Investor / parties as agreed Required before signature of option, SAFE, assignment, IP, services, or shareholder documents.
Company formation / NewCo setup To be quoted Investor / NewCo Includes incorporation, cap table setup, shareholder documents, and filings.
Tax/accounting advice To be quoted Investor / parties as agreed Required for founder equity, share transfers, options, warrants, or assignment payments.
Due diligence / KYC / source-of-funds To be quoted Investor / NewCo Especially relevant before larger investment, club procurement, or institutional funding.

Stage 1 - Exclusive Option and MVP v2 Build

Table:

* Cost Item Indicative Range Timing Notes
Option fee GBP 15k-25k At option signing Paid for exclusivity / first right. Credit against later buyout or investment only if expressly agreed.
Option period 60-90 days From signing Extension requires written agreement and additional consideration.
Founder/operator retainer GBP 10k-18k/month market basis Monthly in advance Pays Razim for active delivery. Discounted founder rate of GBP 6.4k/month applies under Options A and B while meaningful founder economics remain; no discount under Options C/D.
Interim CTO / technical lead role Included in retainer or separately agreed Monthly / milestone Covers architecture, model-lab direction, data pipeline oversight, evaluation discipline, contractor supervision, and technical investor/pilot support.
Stage 1 sprint/build fee GBP 15k-30k (Option A) / GBP 25k-50k (Options B/D) Milestone or upfront Funds MVP v2 scope, demo hardening, evidence pack, documentation, and investor/pilot walkthrough. The option routes price the sprint as a standalone deliverable with acceptance criteria; the NewCo route prices it as funding into the parties' own company.
Basic cloud/runtime GBP 50-1k/month As incurred Hosting, demos, storage, light API/runtime costs. GPU training excluded.

Design/document/export costs | Included or separately agreed | As incurred | PDF exports, investor materials, product docs, presentation support.

Stage 2 - Pilot-Ready Product

Table:

*** Cost Item | Indicative Range | Timing | Notes**

Pilot product build | GBP 30k-60k | Milestone-based | Repeatable match workflows, saved moments, report/export polish, pilot onboarding.
Founder/operator retainer | GBP 10k-18k/month | Monthly | Continues while Razim actively leads delivery. Interim CTO / transition support | Included in retainer or separately agreed | Monthly / milestone | Technical roadmap, handover preparation, contractor oversight, and pilot technical governance.
Pilot support / demo operation | GBP 2k-8k/month | During pilot | Support, walkthroughs, fixes, preparation, user feedback.
Light production infrastructure | GBP 250-2.5k/month | Usage-based | App hosting, API, storage, monitoring, security basics.
Customer/pilot expenses | To be agreed | As incurred | Travel, club/user meetings, data preparation, onboarding materials.

Stage 3 - Expanded Model-Lab and Validation

Table:

*** Cost Item | Indicative Range | Timing | Notes**

Expanded model-lab work | GBP 60k-120k | Milestone-based | More matches/competitions, cohort evaluation, challenger models, model cards, reliability reports.
Data engineering / analytics support | GBP 5k-25k/month | As needed | Additional contractor or analyst support if required.
Classical ML compute | GBP 50-1k/run | Per experiment/campaign | CPU-friendly experiments, tree/boosting challengers, calibration checks.
Model review / football domain validation | To be quoted | As needed | External football/data advisors, analyst review, validation sessions.

Stage 4 - Licensed Data and Tracking Enrichment

Table:

*** Cost Item | Indicative Range | Timing | Notes**

Early licensed data access | GBP 5k-25k+ | Per provider/scope | Small provider/data package, pilot licence, or limited research access.
Validation-scale data access | GBP 25k-100k+ | Per provider/scope | Larger event/tracking dataset for serious model validation.
Premium/commercial data access | Provider quote | Contract-based | Major provider tracking/event feeds usually require direct negotiation.
Tracking-data pipeline | GBP 20k-80k | Milestone-based | Ingest, normalise, align events/tracking, QA, and model-ready features.
Data licence/legal review | To be quoted | Before signature | Scope, derivative rights, commercial use, redistribution, and attribution.

Stage 5 - Advanced Neural / Spatial Model Programme

Table:

*** Cost Item | Indicative Range | Timing | Notes**

Tracking-enriched model run | GBP 5k-25k/run | Per serious run | Spatial model using lane pressure, team shape, receiver availability, and tracking context.
Neural sequence model run | GBP 25k-100k+/run | Per major run | Transformer, temporal GNN, or hybrid spatial/sequence model over tracking data.
Research campaign | GBP 250k-1.5m+ | Campaign budget | Multiple experiments, failed runs, ablations, monitoring, validation, and model selection.
Specialist ML contractors | GBP 10k-40k+/month | As needed | ML research engineers, tracking-data specialists, MLOps, evaluation experts.
GPU cloud | Usage-based | As incurred | A100/H100/B200-class compute; exact pricing must be re-quoted before use.

Stage 6 - Commercial Platform and Operations

Table:

*** Cost Item | Indicative Range | Timing | Notes**

Platform build-out | GBP 100k-300k+ | Milestone/phase | Multi-user app, permissions, saved workspaces, customer workflows, admin, security.
Production infrastructure | GBP 1k-25k+/month | Usage-based | Hosting, storage, monitoring, API runtime, media assets, inference, backups.
Engineering hires / later CTO / team | Market rates | Ongoing | Internal team or contractors for frontend, backend, ML, data, DevOps, product. Later CTO hire does not automatically remove agreed founder/interim CTO economics or transition rights.

Sales/customer success | To be agreed | Ongoing | Club/media/academy onboarding, training, account management, support.

Insurance, compliance, finance | To be quoted | Ongoing | Business insurance, legal compliance, accounting, payroll, contracts.

IP / Transaction Costs

Table:

* Transaction Route | Indicative Cost Treatment | Notes

NewCo founder-led | IP value reflected in founder/company economics | Requires shareholder, IP, services, vesting, and governance documents.

Build + transfer option | Option fee + retainer + possible GBP 250k-750k buyout | IP remains with Razim until exercise and payment/completion.

Full IP assignment | GBP 300k-750k+ assignment price | Asset-transfer route; advanced model/data programme excluded unless included.

Founder optics / 51% investor path | Investor funds milestones to move toward 51% | NewCo company route. Separate full IP buyout should not apply unless Investor switches to an outright acquisition route. Requires tax, securities, vesting, dilution, and counsel review.

Excluded Unless Expressly Included

- VAT, taxes, bank fees, foreign exchange, or withholding.
- Legal, tax, accounting, company secretarial, and due diligence fees.
- Paid/licensed datasets beyond the stated scope.
- GPU compute beyond the stated budget.
- Third-party APIs, data providers, cloud overages, and enterprise security requirements.
- Travel, meetings, pitch materials, and customer onboarding expenses.
- Guarantees of revenue, customer conversion, model accuracy, or future fundraising.

Payment and Control Notes

- Retainers should be paid monthly in advance.
- Build work should pause if payments are missed.
- IP transfer should not occur before the relevant payment, escrow release, or company completion event.
- Any exclusivity should be paid, time-limited, and terminate if the option expires or payments stop.
- Any staged investor ownership increase should correspond to actual funded milestones and counsel-reviewed documents.

Non-Binding Effect

This schedule is for discussion only. No party is bound unless and until definitive agreements are signed.
